

# MAYDM

## Program Instructor

### About this Job

If you believe the future of technology is brightened by the diverse young builders of tomorrow, then we want you on our team. We are looking for the talented and passionate instructors who are willing to go above and beyond. We seek those who believe teaching and learning go hand in hand. Those who empathize with great ideas. Those who work with in details but think in the abstract. Those who can fail forward. Those who can take an idea and run with it. And those who work toward progress as a team.

Candidates that are interested in working with us will be expected to lead immersive classes of up to 16 middle school students. A working knowledge of web development is critical and teaching experience is preferred. **Candidate must be available Tuesdays and Thursdays at 2:30pm-3:30pm from September 10th to January 24th.**

Maydm will provide a thorough onboarding process and support its instructors in their daily activities. Candidates that will work best with us are those that come ready to learn or can already empathize with principles of youth development and/or instruction, demonstrable by experience or a clear willingness to rapidly learn on the job.

### DIRECT RESPONSIBILITIES

- Instruct with a partner teacher to provide Maydm curriculum
- Build upon the day, with exciting and interactive activities
- Mentor, listen to, and engage with students of all backgrounds and skill levels
- Encourage students to self-identify as technical leaders or resources within their communities
- Stay critical and self-evaluate
- Arrive each day early and with a positive attitude
- Stay up to date on changes in the curriculum or programs as a whole
- Learn new technologies as necessary

### REQUIREMENTS

- Demonstrable experience in front-end or full stack development through web development
- Experience teaching or instructing in some capacity with students grades 6th-12th, preferred
- Strong problem solving skills, personal integrity, maturity, credibility
- Strong organizational skills and attention to student needs
- Working knowledge of social justice frameworks
- Teamwork oriented, but capable of decision making on your own when necessary
- Love having fun and support fun-first teaching ideologies
- Must pass background check.

**Women and technologists of color encouraged to apply.**

Compensation \$14/hour
