

# **MAYDM**

## **Workshop Instructor**

### **About this Job**

We seek enthusiastic candidates to teach web development and other technical skills through one-day workshops for Middle and High Schoolers from local Madison schools. A working knowledge of computer science and STEM are critical, and experience working with kids is preferred. The workshops will take place on the UW campus.

Maydm will provide thorough support for instructors in their activities. Candidates that will work best with us are those that come ready to learn or can already empathize with principles of youth development and/or instruction, demonstrable by experience or a clear willingness to rapidly learn on the job.

Workshops will be hosted all day on the following days. Please apply if you are available for any of these days.

October 24 (Th)

October 25 (Fr)

November 4 (Mon)

November 19 (Tue)

November 20 (Wed)

### **DIRECT RESPONSIBILITIES**

- Teach with team of instructors
- Build upon the day, with exciting and interactive activities
- Listen to and engage with students of various backgrounds and skill levels
- Encourage students to self-identify as technical leaders or resources within their communities
- Stay critical and self-evaluate
- Arrive early and with a positive attitude

### **REQUIREMENTS**

- Must complete UW Youth Clearance Mandates
- Demonstrable experience in computer science, engineering, and/or mathematics
- Interest in and knowledge of uses of computer science and math in everyday life, and in the sciences
- Experience teaching or instructing in some capacity
- Strong problem solving skills, personal integrity, maturity, credibility
- Strong organizational skills and attention to student needs
- Working knowledge of social justice frameworks
- Teamwork oriented, but capable of decision making on your own when necessary

- Enjoy having fun and support fun-first teaching ideologies
- Must pass background check.

**Women and students of color encouraged to apply**

## **About Maydm**

Building a world where girls and youth of color fearlessly express themselves in the technology sector

Maydm is a nonprofit that equips girls and students of color with the technical skills, mentorship, and exposure to pursue opportunities in technology. We offer out-of-school programs to engage in computer science.
